Michael Kemps:  
Innovative Computing  
Systems – Chief  
Executive Officer

# Agenda

- Introductions
- The PDF format. A Brief history
- Legal Document Workflows
- DocsCorp Design Approach
- Demonstration of DocsCorp Solutions

# INTRODUCTION

## Innovative Computing Systems

- Since 1989 we have been the trusted partner to law firms and legal departments that want to define or improve a comprehensive IT strategy; implement, integrate and support best-in-class technologies; or leverage the power of cloud computing.
- We are deeply committed to maintaining long-term strategic relationships with clients to ensure the highest levels of success with their IT initiatives.
- This commitment is reflected in our company being named as a vendor who provides exceptional customer service in the ILTA/Inside Legal Technology Purchasing Survey for three years in a row.

Our products

# Integration Partners

Open Text Content Server

## Portable Document Format

- Created by Adobe in 1993.
- Released as open ISO standard in 2008.
- Format that can be viewed on any computer.
- PDF Format Options
  - Searchable/Non-Searchable
  - Secure
  - PDF/A
  - Digital Signatures

The PDF Format

Built on the same technology used by Adobe

- User interface mirrors MS Word
- Tight integration with Legal DMS
- Easy to use

Same format,  
better interface

## Three applications in one

### Single Document View

- Open/View/Edit a document in place

### Organizer Project

- Work with/Edit multiple documents at one time

### Binder Project

- Combine multiple documents in slick, finished portfolio/deal book with Table of Contents

Three Modes

Demonstration

## pdfDocs

- Intuitive and easy to use
- Responsive and timely support
- Industry standard PDF
- Legal friendly design (matter-centric)
- Way less expensive than Acrobat
- Something for all users
